

TSA Has Refined the Ban on Liquids, Gels and Aerosols

There are two major changes:

1. Travelers may now carry through the screening checkpoint **travel-size (3 ounces or less) containers** of liquids, including toiletries, that fit comfortably in one **QUART-SIZE clear, plastic, resealable bag**.

Note: No more than **ONE** bag is allowed per individual

2. Travelers may now bring onboard aircraft beverages and other items that are purchased in the sterile boarding area (that is, beyond the passenger screening checkpoint).

At the screening checkpoint, travelers will be asked to remove the quart-size clear resealable bag containing liquids, and place it in a bin or on the conveyor belt for x-raying. X-raying the bag separately will allow TSA Security Officers to examine the items more thoroughly.

* * * * *

IN ADDITION: Baby formula and baby food, medications and liquids or gels for diabetic or other medical needs must be declared at the screening checkpoint for additional screening.

* * * * *

I wish to declare the following items contained inside my carry on bag:

- ☐ B- ____ Bottles of baby formula of ____ oz.
- ☐ B- ____ Bottles of baby formula of ____ oz.
- ☐ B- ____ Baby food containers of ____ oz.
- ☐ B- ____ Baby food containers of ____ oz.

- ☐ M- ____ Over the counter medication _____ of ____ oz.
- ☐ M- ____ Over the counter medication _____ of ____ oz.
- ☐ M- ____ Over the counter medication _____ of ____ oz.

- ☐ M- ____ Bottles of liquid medication of ____ oz.
- ☐ M- ____ Bottles of liquid medication of ____ oz.
- ☐ M- ____ Bottles of liquid medication of ____ oz.

- ☐ L- ____ Bottles of ____ oz. of liquid for diabetic/other medical need
- ☐ L- ____ Bottles of ____ oz. of liquid for diabetic/other medical need
- ☐ L- ____ Bottles of ____ oz. of liquid for diabetic/other medical need
- ☐ L- ____ Bottles of ____ oz. of liquid for diabetic/other medical need
